## Stressometer service portfolio

Maximize strip value and productivity

Measurement made easy

Service solutions for stressometers

### Introduction

Our services have been developed to help customers get the most from their mills. From improving performance through system upgrades to health checking services designed to verify performance of the Stressometer system and the flatness actuators.

### Help is at hand to

- Increase end product value and quality
- Lower unscheduled downtime risk
- Reduce maintenance costs
- Identify actuator problems

Stressometer system upgrades

Measurement Care

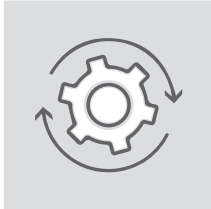

## Stressometer service portfolio

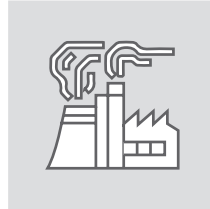

**Installation and commissioning**  
Ensure right first time installation, fast commissioning and perfect performance from the start.

**Shadow system upgrades**  
Upgrade with only a few minutes of downtime and prove the new system before turning off the old.

**Preventive maintenance agreement**  
Peace of mind if something goes wrong.

**Corrective maintenance**  
Comprehensive support to enable maximum productivity and up-time.

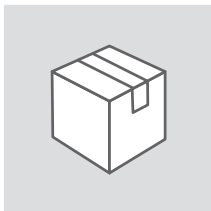

**Measurement roll health check**  
Reduce roll failure downtime risks and enhance flatness control system performance.

## Measurement care

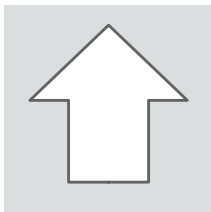

ABB can bundle these services within a tailor-made service agreement to meet your needs.

**Flatness control health check**  
Increase production yield and detect malfunctioning actuators.

**Spare parts management**  
Stress-free – original parts and consumables for any emergency or scheduled service, 365 days a year.

**System upgrades**  
Maximize strip value and productivity by upgrading to the latest system.
